

DATE: 1/11/2017

Dear Parent,

FitterFly, specialising in child fitness & nutrition, are conducting fitness assessments for the students of our school.

The assessments will be conducted in the month of November 2017, within school premises and during school hours.

FitterFly will conduct a fitness and nutrition assessment of your child and will give you a detailed progress report and recommendations. They have held these tests in other schools and have received positive feedback from parents.

They will be conducting a special complementary fitness Fitterfly Lite Programme which will be for all students.

Apart from this, some specialised optional tests will also be conducted. Kindly check the leaflet given to your child. For any clarifications please call on 7045065225. The Fitterfly Representatives will also be available on Open house 11th November 2017.

Thank You.

Principal
