NOTICE REGARDING MR VACCINATION CAMPAIGN

Dear Parents,

As informed earlier the MR Vaccination Campaign will be implemented in our school on the 28th November 2018. It is a regular school day.

Kindly note the following important points for the day of vaccination:

- Attendance of students for the vaccination campaign is compulsory.
- All students should have a proper breakfast before coming to school on MR vaccination day.
- Kindly send an ORS tetra pak with your child to school for rehydration post vaccination.
- No food should be taken orally half an hour before and after vaccination.
- Only one parent of students of Classes Pre-Primary and I - II can be present for the vaccination.

Kindly read the information leaflet sent with your child. We look forward to your cooperation in making this Campaign a success.

Thank you

Sub :- Measles Rubella communication campaign implementation in your school.

Respected Sir/ Madam,

Govt. of India had set a goal to eliminate Measles and control Rubella & Congenital Rubella Syndrome by the year 2020. Govt. of India has introduced Measles-Rubella (MR) Vaccine in phase manner through campaign across the country. The campaign has been implemented in 22 states and more than 14 crore children have been vaccinated through the campaign.

Maharashtra is conducting this campaign from 27th November targeting 3.7 crore beneficiaries. NMMC is also ready for the campaign targeting 3.5 to 4 lac children from Navi Mumbai.

This is to inform you that following actions will be taken by our team during campaign.

1. One School will be covered in one day.
2. One Vaccinator will give injection to 200 children. So depending on number of your school children, accordingly teams will be appointed. (e.g. if any school have 3000 children, 15 team will be appointed in that school)
3. Injection will be given to children by trained & registered nurses.
4. One team will have one vaccinator and three volunteers.
5. Vaccine will be supplied by Serum Institute of India, the one who supplies vaccine world wide.
6. One Auto Disabled syringes will be used for each child.
7. All aseptic precautions will be taken by vaccinator while giving injection.
8. BMW disposable rules will be followed for the waste disposal after vaccination.
9. One Vaccination card will be given to each child after vaccination along with finger marking.
10. All Children will be observed for ½ hour after vaccination.
11. One pediatrician will be assigned to each school and one medical officer will be available in the school.
